

THE LEGEND

IS BACK

THE LEGEND

IS BACK

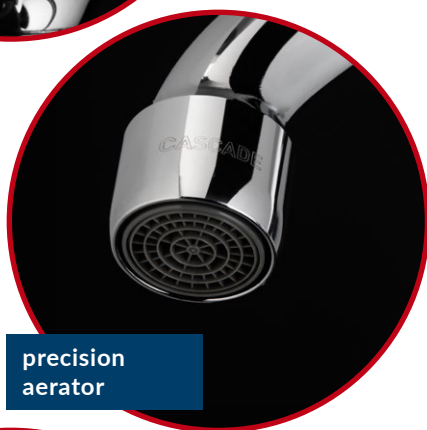

We are presenting
the improved collection
of **the STANDARD mixers.**

ceramic
switch

MORE MODERN

We have replaced the slide switch in the bathtub mixers
with the reliable ceramic switch.

precision
aerator

MORE FUNCTIONAL

All the new mixers from the STANDARD
collection are equipped with a precision
aerator.

new
packaging

MORE LEGENDARY

They look great in the elegant and minimalist packaging. The new
boxes refer to the contemporary trends, but they also keep some
traditional elements. We have left a fragment of the grid pattern
which has been a distinguishing feature of our products for years and
refreshed its look by making it more subtle at the same time.
